

ONE PERFECT DAY IN

Mykonos

Day 1

Morning

Mykonos Town

Spend the morning exploring "Little Venice".

This is a very picturesque area where you'll want to get some good shots in the narrow streets. These streets are also filled with great shopping boutiques so make sure to visit those too. **Matoyianni Street** is your central navigation point.

Windmills

These are a short walk from the Little Venice area. There isn't much to do there but they are a pretty sight to admire. It tends to get very crowded especially toward the evening so if you want to take some pictures, come super early to skip the crowds.

Afternoon

Lunch

Walk back to shore and grab a table along the water for a good bite. If you're on a budget, you might have to drop the view and head back into the street maze for some less expensive options.

Beach time

After lunch, grab a taxi to the beach. You have a couple of options here depending on the atmosphere you're looking for:

- **Paradise** and **Paraga** are for day drinks and a party atmosphere
- **Super Paradise** is more laid back for relaxing and known as the gay beach
- **Agios Sostis** is more remote and might be harder to get a taxi back from but you certainly skip out on the crowds here
- **Agios Ioannis** is also less crowded, easier to access, and more central
- **Ornos** has a more family-friendly atmosphere
- **Psarou** is where you'll find the fancy crowd
- **Platis Gialos** is a calm and beautiful spot to relax

Evening

Dinner and Sunset

For this activity, you have to head back to the windmills area as it is a good spot to see the sunset from. Although nothing compares to the Santorini views, this probably comes close as well. You will need a reservation for the evening if you want to watch the sunset and have dinner at the same time. If you have some time at night, head into the Little Venice for a bar atmosphere.
